

Environmental Policy Statement

Renewable Energy Assurance Ltd (REAL) carries out a range of certification and consumer protection activities all of which promote renewable energy and the circular economy. REAL's activities fall under three headings: Consumer Codes, Certification Schemes and Registration Schemes. They include the following:

- Renewable Energy Consumer Code (RECC)
- Electric Vehicle Consumer Code for Home Chargepoints (EVCC)
- Green Gas Certification Scheme (GGCS)
- Biofertiliser Certification Scheme (BCS)
- Compost Certification Scheme (CCS)
- Compostable Materials Certification Scheme (CMCS)
- EV Roam.

REAL is committed to:

- Protecting our environment, preventing pollution and encouraging others to do the same
- Identifying our environmental aspects and reducing their impacts on the environment
- Meeting or exceeding the requirements of the Race to Zero programme
- 'Living our values' as an organisation dedicated to tackling climate change and resource efficiency
- Supporting our employees to consider their choices, activities and emissions, whether at work or at home
- Consolidating our position as leaders and influencers in the energy and environmental sectors
- Complying with all applicable legal, contractual and consumer protection requirements
- Setting objectives and KPIs in these commitment areas to monitor and improve our environmental performance
- Continually improving our Environmental Management System which meets the requirements of ISO 14001:2015.

The REAL Management Team has ultimate responsibility for our environmental performance as well as for the Environmental Management System itself. However, we expect all REAL employees to support our commitment to the environment.

This policy is communicated to all employees, consultants and sub-contractors and is available to other interested parties on our website. This policy, and the associated Environmental Management System, is reviewed annually to ensure that it remains appropriate to our strategic direction and is suitable, adequate and effective.
